技术特长

编程语言：精通 C/C++、熟悉 Python/Shell
操作系统：精通 Linux/Windows
工具软件：精通 Viusal Studio、Emacs、Subversion、Git

工作经验

汤森路透（中国）研发中心

软件开发工程师，2011 - 现在

- Maintain and develop internal infrastructure and software as part of a small team.
- Provide both regular and short-notice cover for academic staff due to timetable clashes, illness etc.
- Provide student-facing support in laboratories and contribute to teaching materials.
- Develop testing environments to match production, using Vagrant and VirtualBox.
- Built PHP web service to abstract sending email in student exercises, with auditing and rate limiting.
- Integrated multiple support systems and authored CPAN modules: OTRS::ForwardQueue and WWW::BrokenLinks.
